

# Hydra® Edge Mounting

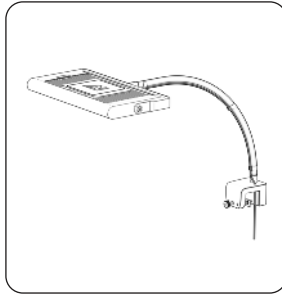

Hydra® Edge mounting using HMS may require an appropriate adapter kit. Adapter kits will fit either the 44 or 68 sized Hydra® Edge Lights. Use the chart below to identify which product or adapter kit is needed to mount your light. One adapter kit/mounting kit is needed per Hydra® Edge. HMS multi-light kits may allow for mounting multiple lights using multiple adapter kits.

Configurations

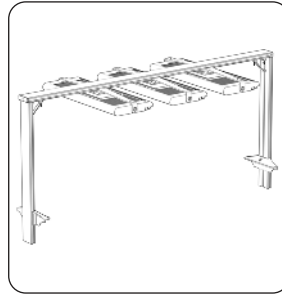

### Edge Single Light Mounting

For mounting a single light to your rimless tank up to 1.2" (3cm).

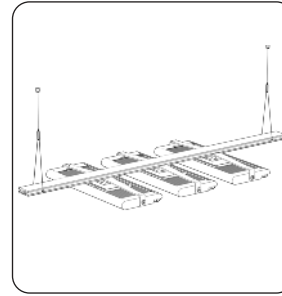

### Flexarm Mounting

The Hydra® Flex Arm is the simplest and easiest Edge 44HD mount.

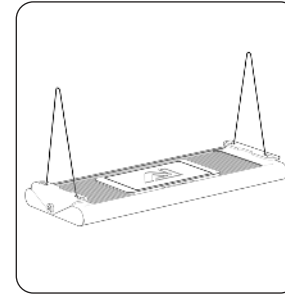

### Edge Multi Mount

Great for mounting multiple lights on one rail across your tank.

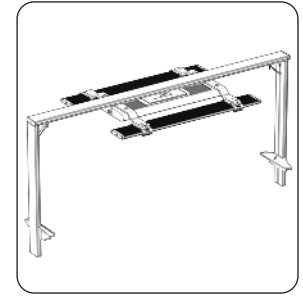

### HMS Hanging Kit

An elegant solution to hang multiple Hydra® Edge lights over your tank.

### Edge Hanging Kit

An elegant solution to single light suspension.

### Hybrid Mount

Combine Hydra® Edge with Blades using the Hybrid mount.
